Summary

Swift and React developer building for web and iOS. Founder of **eSIMFly**, an international eSIM platform with **4,000+ eSIMs sold worldwide** (React, Node.js, Supabase, Stripe), and developer of **three apps on the Apple App Store** – including **ReceiptlyAI**, an AI receipt scanner built entirely with **React Native**. M.Sc. in Information Technology, recognized in Germany. Looking for a frontend or iOS role in Munich.

App Store Apps – Live

ReceiptlyAI – AI Receipt Scanner

Apple App Store · [Live](#) · React Native, Expo, Cloudflare Workers

- Built entirely with **React Native + Expo** and published to the App Store
- AI/OCR pipeline detects merchant, totals, taxes and line items from a photo

StepsApp & Vaultic – Two Native iOS Apps

Apple App Store · Swift & SwiftUI

- StepsApp: HealthKit pedometer – 5.0/5 rating, **2,000+ downloads**
- Vaultic: Face-ID-protected photo & file vault, fully on-device encryption

Further Projects

FlowPilot SaaS dashboard (React, TypeScript) · Portfolio website (React, SEO) · Rewe app clone (Flutter)

Work Experience

Freelance Developer & Founder – eSIMFly

2024 – Present · esimfly.tel

- Founded and run an international eSIM store selling mobile internet worldwide – **4,000+ eSIMs sold**
- Built the entire platform solo: React/TypeScript front end, Node.js & Supabase back end, Stripe checkout with automated eSIM delivery by email & QR code
- Responsible end to end: product, payments, customer support and operations

IT & Web Developer, LDA Digital Solutions, Tirana

2023 – 2024

- Helped build and maintain the company's web applications
- Technical IT support and system administration for internal infrastructure

Mobile Device Technician – Service & Sales, A&D Service Phone, Elbasan

2017 – 2023

- Technical customer service for smartphones and laptops – diagnosis, repair, software
- Built an internal software tool to streamline service processes – my start in programming
